

GENERAL INFO AND WARNINGS

WARNING!!

There are no controls and/or useful parts inside the box. Please open it just to replace the battery

Please:

- Do not throw water jets directly on the appliance
- Do not use water steams to clean the appliance
- Do not use solvents to clean the appliance, especially on the serigraphy

IMPORTANT NOTES

- The appliance conformity is proved by **CE** symbol on the sticker near the 9VDC socket
- The manufacturer declines all responsibility for any kind of damage to persons, things and/or animals resulting from a wrong use of the appliance
- The manufacturer reserves the right to make any useful and essential change to the products without compromise the main safety and working features
- Do not use the appliance barefoot
- Do not touch the appliance with wet or moist hands or feet
- Do not allow children or incompetents to use the appliance
- Do not leave inflammable materials near the appliance
- Do not pull up the appliance by control knobs
- Read carefully, compile and deliver the warranty attached to the appliance
- The appliance repair may be done during the warranty period only by us, in our laboratory, or by authorized staff, in conformity to the national previsions in force
- In case of damage please contact the shop where you bought the appliance

Please, fill out the warranty form you find on

www.brunetti.it

to validate your warranty

OWNER'S MANUAL

BURNING BOX

By reading this manual you will deeply know the device you bought and will have the chance to fully experience its potential. Our sets are handmade. This is why you could find some sound and structural differences. This testifies the handmade making of the product

Finest Italian handmade

FEATURES

Burning Box is the new Brunetti high-gain distortion stomp box.

It is intended to deliver gain and distortion levels to the utmost. It is endowed with "FET" technology to reproduce tubes behaviour and dynamics as faithfully as possible.

Burning Box is pure force, devoted to more extreme and aggressive sounds, it goes beyond limits, it is pure power set free!

Despite the unbelievable violence of its distortion, controls are effective and designed to mould the timbre according to your style and the instrument connected...and to limit the damage!

This small box contains all tube amplifier power driven to the peak: that is the wild compressed distortion nearly unrestrainable!

Marco Brunetti designed the Burning Box to meet musicians requirements, for those who expect the utmost and look for extreme situations.

This stomp is dedicated to people who are never satisfied with what their amplifier could offer.

**Every single note will appear to roar, every single riff will have explosive bass and burning high!
There are no half measures with your Burning Box!**

SPECIFICATIONS

- INPUT Impedance = 500KOhm
- OUTPUT Impedance <= 50KOhm
- Max out level = 600mV
- Weight = about 200g / 0,4lbs
- Dimensions = 100 x 110 x 55 mm
- Current draw = 14mA
- Average 9V (200mA/h) battery life = about 14 hours
- WIMA capacitors, made in Germany
- Metal-film or carbon-film resistors depending on their functions
- SH multiwiper potentiometers, aluminium wiper

CONTROLS

- A** - True-bypass switch to turn the effect on and off: when Burning Box is off, it does not alter the signal
- B** - Output jack to the amplifier
- C** - Input jack from the guitar
- D** - Standard "BOSS" connector for DC 9V (center pin negative)
- E** - LEVEL: effect's output level control. It is useful to smooth volumes. To increase the signal level output, turn it clockwise
- F** - BALLS: low frequencies level control. To heighten bass presence, turn it clockwise
- G** - KNIFE: medium/high frequencies control. To increase medium frequencies and make distortion clearer and more aggressive, turn it clockwise
- H** - FIRE: gain control. To increase the Burning Box distortion level, turn it clockwise
- I** - Led that indicates the effect activation
