This manual contains a lot of information required to have in-depth knowledge of the equipment. Therefore we recommend that you read this manual carefully in order to use its potentials to the very best. All of our products are made on an artisan basis and therefore you may find some small acoustic and/or structural differences. This is the very best guarantee of a truly hand-made product.

Construction

The structure of the cabinet, together with the type of speakers, are extremely important towards determination of the final sound. The cabinet 4x12" CW412 has been studied with special characteristics and specifications in order to provide a greater amount of sound information, therefore enhancing the colour and the quality of the Customwork amplifiers series.

We have used one of the most sturdy and compact woods currently available, plywood birch. Thickness may vary according to requirements. The entire box is extremely sturdy and stable and it has been designed to have the best quality.

It is obviously possible to match the cabinet with other amplifiers by improving performance.

The cabinet was born with **Celestion V30** speakers.

Upon request **Celestion Green Back** or **G12H** speakers can be fitted.

Everything that forms a Customwork is assembled by hand in Italy.

Many of its components are built in Italy.

Specifications

SPEAKERS

CONFIGURATION

Celestion Vintage 30

4x12" 250 W mono

Celestion Green Back

4x12" 100 W mono (On request)

Celestion G12H

4x12" 120 W mono (On request)

IMPEDANCE 16 Ohm

DIMENSION 760 x 760 x 360 mm

WEIGHT 35kg

The box is supplied complete with 4 removable wheels.

All of our equipment is artisan. For this reason you may find small acoustic and/or structural differences. This is the guarantee of a truly hand made product.

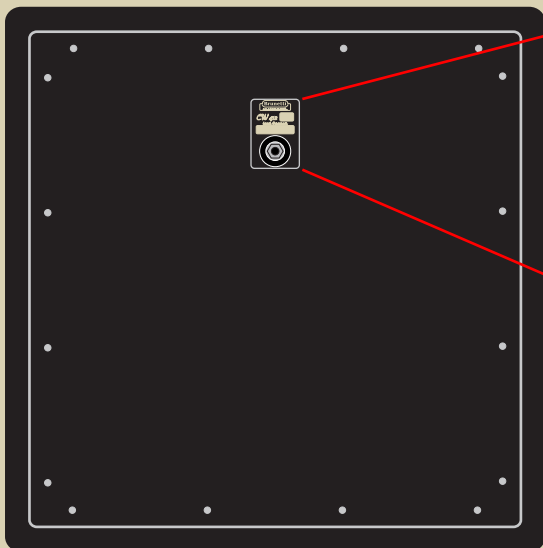

Details

TOP VIEW

These two black anodised aluminium plates guarantee a safe support base for the head. Their exact position and dimension have been studied to hold practically all heads on the market.

REAR VIEW

The impedance of the cabinet is indicated in this field.

Here you can find an indication of the type of speakers assembled and the maximum power supported (W).

Mono input jack

Important notes

- The manufacturer declines all responsibilities in terms of damages to people, things and/or animals caused by incorrect use of the appliance.
- Compliance of the appliance is highlighted by the EC symbol shown on the back.
- The manufacturer reserves the right to make any modifications to its product that it may consider necessary and useful, without compromising the functional characteristics and safety of the product.
- Do not use the appliance when bare footed.
- Do not use the appliance with wet hands and/or feet.
- Do not leave the appliance exposed to atmospheric agents (rain, sun, humidity etc.)
- Do not allow children or any unskilled individuals to use the appliance.
- Avoid putting inflammable material close to the appliance.
- Fill in the warranty form that you will find on the website WWW.BRUNETTI.IT, otherwise the warranty will not be valid.
- Repairs to the appliance may only be carried out in our premises during the warranty period and, in any case, only by authorised technicians in accordance with applicable national norms and directives.
- Periodically check the cables supplied together with the appliance. If they appear to be scratched, cut or burnt etc. replace them immediately with similar cables.
- In the event of a fault contact the shop that you bought the appliance from.
- Make sure that the appliance is correctly earthed in accordance with applicable national norms and regulations.
