Before using, please take few minutets to get familiar with your Amplifier and carefully read the advices, explanations hereby reported. All our units are hand made. For this reason you could find design or sound differences. All this as guarantee that you bought a true hand-made product.

Finest Italian handmade

Dual-Cab

Dual-Cab is the 2 x 12" Brunetti speaker cabinet. It has been realized following the needs of those players who have to move from place to place, so it has a low weight and a high power.

Dual-Cab was designed following a **Half Back Open** configuration which allows a different frequency response and dynamic. It is possible to place a microphone to have the best rear diffusion. This particular technique, used in Live and recording systems, improves the sound definition and precision. The rear part can be opened unscrewing the panel.

Dual-Cab is completely hand-made assembled.

Speakers

Configuration

Celestion Vintage 30 8 Ohm 60W 2 x 8 Ohm 60 W stereo – 1 x 4 Ohm 120 W mono
